

# A. Plant production

## A.3. Inputs for plant production

national farm number: \_\_\_\_\_

Page: \_\_\_\_\_ / \_\_\_\_\_  
Y E A R

Please record here each entrance or each use from seeds or vegetative propagating material as baby plants or young plants. Also please record here farm-saved seeds, which is coming from own or foreign farm-saved seeds. Keep the bag labels. In the column „seeds“ is written „conv.“ for conventional untreated. Additionally record here all organic\* (as horse manure, compost or similar) and mineral manure, which are not from own farm as additives like, straw for litter, sawdust, additives from manure and compost or similar.

Please record all purchases from plant protection- and plant protection care inputs here additionally.

The use of all those inputs must be added in the plant production journal (A.1.).

Date	Invoice number	Inputs (seeds, fertilizer*, plant protection substances)	Name input including variety at seeds	Seeds		Quantity (Unit)
				Organic	Conv.	
02.05.17	3	Saatgut	Weizen, Capo	X		120 kg
20.05.17	15	Dünger	Pferdemist			30 t
22.06.17	23	Pflanzenschutzmittel	Novodor FC			50 kg

\* full added documentation form for bio gas manure, compost and manure must be available at the farm.
