

Terms of use for the logo "approved input for organic production" by EASY-CERT services GmbH

Products that have been positively evaluated by EASY-CERT services GmbH and are listed in the input database on www.betriebsmittelbewertung.at may be labeled with the logo "geprüftes Betriebsmittel für Bio" (= approved input for organic production).

The certified products are evaluated on the basis of regulation 834/2007 as amended and are permitted for use in organic production.

It is a trademark protected logo.

The logo "approved input for organic production" may be used under the following conditions:

- The logo in the provided version may be used on the labels or packaging of products and for advertising purposes in product-related advertising for listed products.
- The use of the logo is free of charge. However, the company must send a sample label, an example of the packaging, the advertising brochure or the link of the website of the logo's use to EASY-CERT services GmbH.
- The logo may not be used for certified organic products such as certified organic feed or certified organic ingredients. These products are subject to different labeling regulations (code number, EU organic logo etc.). For more information, please contact your organic inspection body.
- The respective legal provisions for the labeling of the products must be observed.
- By complying with the general terms and conditions, the company is obliged to use the logo correctly. In the event of improper use of the logo, the provisions set out in the general terms and conditions apply.

Further graphic requirements for using the logo:

The logo should be clearly visible on the packaging and should be at least 15 mm in size.

The following color definitions apply for the use of the logo:
